

# HORUS WEB

Herramienta para el análisis de cumplimiento de normativa pesquera internacional en base a video.

## Principales funcionalidades

### Visualización de la flota geoposicionada

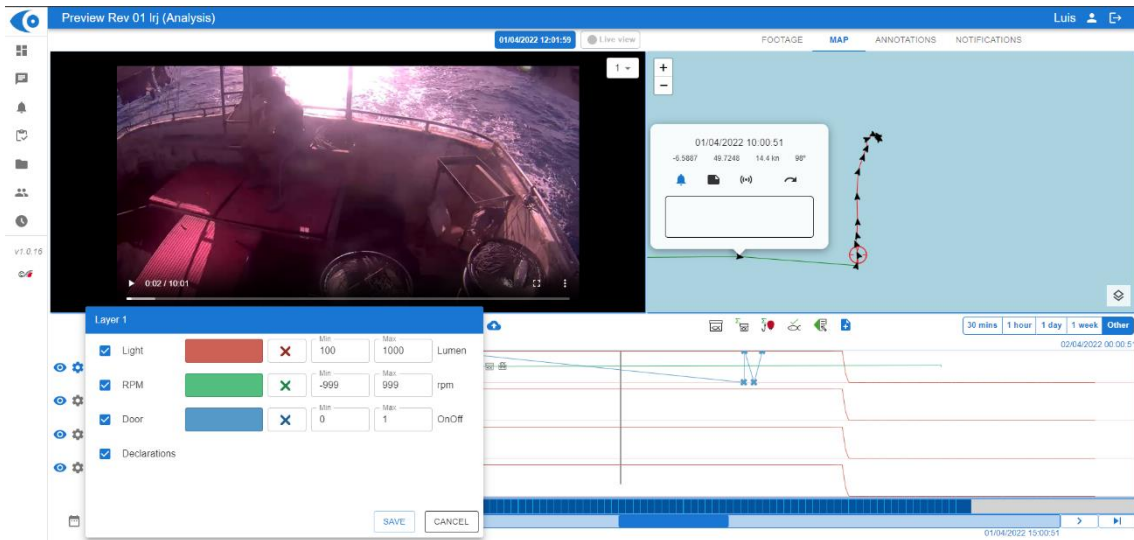

The dashboard displays a list of vessels with their names, last connection times, and status indicators. A map on the right shows the location of the vessels in the Pacific Ocean near Ecuador. A tooltip for vessel 'Guayayuna 1' shows its location on 31/10/2023 at 04:24:00 with coordinates -3.4304, -85.9655 and a distance of 11.5 km.

Vessel Name	Last connection	Status
Albacora 1	14 days	Green
Albacora 9	537 days	Green
Draco	14 days	Green
Galeria	546 days	Green
Galeria 2	14 days	Green
Galeria 3	14 days	Red
Galeria Lau	14 days	Red
Guayayuna 1	14 days	Green
Guayayuna 2	14 days	Green
Seatube Ofi	86 days	Red
Vessel #1	14 days	Green
Vessel #2	14 days	Yellow

### Visualización sincronizada de cámaras, posiciones GPS y sensores

The interface shows a synchronized view of camera footage, GPS positions, and sensor data. The top section displays two camera views: a wide-angle view of the vessel's deck and a closer view of the vessel's bow. The bottom section shows a timeline of GPS positions and sensor data for the vessel 'Light: 780.23916' on 01/04/2022 at 03:42:00. The timeline includes a zoomed-in view of the vessel's position and a detailed view of the sensor data.

## Customización de gráfica de sensores

## Mensajería vía satélite con todos los buques de la flota
